

I heard that you are looking to replace some national FM stations, such as K-LOVE, with LPFM stations. I sincerely hope this doesn't happen. K-LOVE serves our community because it's the only station offering Christian radio programming, making it unique and the only station where community listeners can get this type of programming. K-LOVE programming is not available locally or anywhere else! Also, its programming serves a big population and would be sorely missed if it was discontinued. Please consider this request.
